Bourdon's has used Stone House Forge for many years for a variety of projects and has always been 100% satisfied.

We have had Stone House Forge customize one of our model bed springs; each year the crews at Stone House Forge checks and double checks to make sure that the dimensions will meet our customer requirements. Over the years Stone House Forge has completed approximately a thousand springs. Each project has been completed on schedule and we have been very satisfied with the quality of work.

As a manufacturing firm we have had to call on Stone House Forge to solve a number of problems. They have always responded promptly, and many times have accomplished the project much more efficiently than we had envisioned.

New Hampshire and Vermont is very fortunate to have a firm with the talent and integrity that Stone House Forge has to work with.

Respectfully,

Charles L. Aiken
